

# Verbatim

**Bob Ostertag**

January 1996

*for Sara*

## Notes on Authorship

Verbatim, and its predecessor works Say No More and Tongue-Tied, are the result of a collaboration with Mark Dresser (bass), Gerry Hemingway (percussion), and Phil Minton (voice). In this process, I have used audio recordings of their solo and ensemble performances as the raw material for *musique concrète* tape compositions, which I then develop into scores such as this, which in turn are used for live ensemble performance. For the purposes of copyright, then, Verbatim is a "derivative work," derived from three generations of human/virtual collaboration with these musicians. For my own purposes, all I can say is that my interest lies not in the boundaries of ownership but in the creations of new terrains of collaboration. And, of course, deepest thanks to my collaborators.

## Score Notes

1. This score is intended to be used in conjunction with the tape composition from which it is derived. Many notational conventions will be clear only after listening to the appropriate tape passage. This is in keeping with the broader aims of the project, ie., to include precisely specified extended instrumental technique in composition, yet avoid clumsy and inhibiting notational conventions by composing directly in the audio medium using the concrete sounds of instrumental improvisation.
  
2. Noteheads:  
Standard noteheads indicate exact pitch.  
All others indicate relative pitch.  
Changes in non-standard notehead style indicate changes in timbre.

**3. Headless stems:**

There are many sections where improvisation is called for, supplemented by notes which indicate accents in the improvisation. In these cases, headless stems to mark time in the bar rather than rests, since "resting" is not the desired result. This leaves rests free to perform their traditional function.

There are minor exceptions to this rule (Q-Q3), where the rhythmic complexity of the accents would have made the use of headless stems unclear. In these situations rests are used, but the improvisation is clearly instructed.

**4. Section Titles**

Some sections have been given their own titles to simplify the specification of their recapitulation later in the work.

**5. The instruction "Blow!" means to improvise as in "taking a solo," i.e., step out front of the group dynamically and set your own direction. This is distinguished from "improvise" which is generally in a constrained, ensemble context, and "solo," which indicates a true solo passage.**

**B Sampler: Voice Blip**

*mp* same approximate duration as Quasi-Talk

**C Voice: Quasi-Tibet**

*mp* 4 low "quasi-Tibetan chant" phrases, then long low sustained note.  
Same approximate duration as Quasi-Talk

*quasi-Tibet 1*,    *quasi-Tibet 2*,    *quasi-Tibet 3*,    *quasi-Tibet 4*,    *long sustain*

**D Bass: Harmonic Stretch**

*mp* long, arching high bowed harmonics, end with a sustained, fading E.

**D1 Sampler, Voice, & Cowbell: Voice Blip**

enter in unison under bass, constant improvisation, accent with upper voice:

**VPS** 114  
*mp*      *crescendos: cowbell rolls*

**VPS** 31      *scrape bell*

**VPS** 36      *add sporadic drums*

**VPS** 42

**VPS** 48

**E Repeat 3 times:**

- 1st time: bass sampler, & voice (sample & voice: Voice Blip)
- 2nd time: bass and drums (drums play off bass)
- 3rd time: everyone, free vocal improv.

**Bass** = 162  
*mp* (increase dynamic level with each repeat)      *mf*

**Bass** 59      *slower*

**Bass** 62      *ff*

**Bass** 65

**Bass** 69      *p*      *ff*

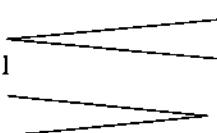

**Bass** 72

Bass

**F** Drums, sampler and voice trade riffs over bass vamp in that order  
 Drums: clear, concise polyrhythms/tempos  
 Voice: follow samples

Bass

**Percussion solo:**  
 sporadic, quasi-random feel

ensemble fade out as drums fade in

**G** drum: tom inflate/deflate, notation marks phrase beginnings only  
 bass: double time Harmonic Stretch (from "D"), use slur marks as guide  
 voice & sampler: voice blip, accents at down arrows

**H1** = 139 (cue in, cue out)

Sampler: ensemble sample

*f* Voice: Voice Blip

Drum: play off sample

Bass: Harmonic Stretch (original time)  
 (soft, sustained E at cue out)

**H2** (cue in, cue out)

*f* Voice, bass & drum: imitate sample

Sampler: Harmonic Stretch & Voice Blip
